## Dear students & parents,

In today's competitive century, the students and parents intensely wish that the students should get good education that enables them to earn good financial source to lead a high quality life.

Today's each and every student and parent has become very much aware about education. Though the student studies somewhere, gets the guidance somewhere, gets all the required facilities from parents, there is no guarantee of reaching the target. We have found out the precise reason behind it. If its answer is found, one can reach the target. So, this is the time to take an important decision for a bright future. We would like to throw light on some important ways to grab the success.

We are very proud about our success that we have achieved till date of **404 IITans, 12706\* Doctors & 25002\* Engineers**. It is our integrated part of our working system to provide good facilities, show affinity and give preference to the students who take admission in Chate Group of Education. In fact, our bright future depends on the new generation only and it is necessary to prepare them well in today's competitive century. However, he should be capable to face the challenges of the world with skills and competence. There is a wide scope and opportunity for each and every student to prove in our pleasant atmosphere and high-tech educational system. In short, Chate Group of Education has created a big network in entire Maharashtra by a well planned system considering time, hard work and money of the student.

Today, it is expected to have more success than the success they get. Chate Group of Education tries to create an all-round developed student by becoming the bridge in these things.
